

***World Class Embraer Opens a World Class Facility
at Melbourne International Airport; Melbourne, Florida***

The facility opened with 70 engineers with a plan to hire 130 more in the next two years. The company operates a Global Customer Center and assembles the Phenom 100 and Phenom 300 business jets as well as its Legacy jets at the airport.

The City of Melbourne and Brevard County took a giant step toward their goal of becoming a world-class aviation and aeronautics hub when Embraer opened its first Engineering and Technology Center at Melbourne International Airport.

Gary Spulak, President of Embraer Aircraft Holding Inc., said, **“Make no mistake. There was a very significant evaluation process that went on to determine the best place in the world to put this facility”**.
